

Privacy Policy - Payment Policy

Equine Health Solutions' web site is private and we do not give out, collect or share any information to third party vendors. Protecting the personal information of our clients, patients and web site visitors is important to us. As a client of EHS, none of your personal information, such as date of birth, drivers license number, social security number or credit card information is ever kept on file, either manually or electronically.

Payment for services is due at the time of an appointment. Equine Health Solutions accepts Master Card/Visa, checks with proper identification, and cash. If needed, an estimate can be given before an appointment. If your horse is at a stable and you can't be there for an appointment, arrangements can usually be made with the barn manager for the doctor to see your horse, with payment arrangements made prior to the appointment.
